Dear Yvonne Helene Koch and Nepal Tara association

Namaste and warm Greetings from Ramu from Bodhi guest house !!!

I have been working with Nepali tourism since long time and now working with Bodhi Guest house. I born in a village called Godavari which is almost an hour drive from Kathmandu. I am now 36 years, Our life was running well in a normal way but at the same time we faced pandemic of this corona virus all around the world and we can not scape from it. Nepal government did a lock down since 6 months.

Many Nepali people who lives in a village suffer a lots from this situation, Normally they are people with daily wages. who work and earn in a day and spend for food for there families for evening. Many people does not have enough food to eat and they were dying with no food.

When people have no work and no income then it is a big problem for them almost 2000 people suicide in Nepal because of this virus, Many of them died with no food and there poor condition.

But at the same time we received very important support for them from Yvonne Koch Helen and the NepalTara NGO. Yvonne is a very kind person and she is a god for many Nepalese people and for me she is a super hero, And very special father for me and many Nepali people Who always supports us a lots when it is needed, Many Nepali people are alive and have a good life now just because of Yvonne. Which we really appreciate and always remember her from the bottom of our heart.

The support from Yvonne Helene Koch and NepalTara was really great for the poor village people. They are able to get Rice and vegetables so then can cook rice and feed there family for a month or two. Thank you so so much Yvonne for your great support and kindness for 150 families in Nepal.

Specially we distributed food in a remote village called chapakharka, Lele in Godavari area which is 1 hr drive from Kathmandu. We distributed specially for

widow, Single women, disable people and very needy people. We distributed rice and daily vegetables for them which was really great support for them to survive
